

How Impressive is your Network of Medical Experts?

- Existing experts getting tired? Over-used?
- Encountering doctors who won't testify? Can't stick to their own opinion? Not objective? Not actively practicing?
- Difficulty with remote areas? Unique specialties?
- Frustrated dealing with staff at ten different medical offices?

➤ **Single Point of Contact**

A single phone call to Benchmark provides you access to 1,600+ board-certified, actively practicing medical experts spanning more than 250 specialties. Whether you need trial testimony, consultation, an IME, record review or any other medical-legal service, we have thoroughly screened, highly credentialed experts who will testify in court and have been oriented to the legal process. They are all independent contractors (not employees of our firm), set their own fees, select their cases and tell it like it is.

➤ **No Up-Front Fees**

Unlike our competitors, we are not a fee-charging finder's organization or an expert directory. Rather, we are paid by our network of independent consultants to be their specialized, full-service administrative back office for medical-legal work, enabling their time to be efficiently-focused on analyzing case issues.

➤ **20-Year Track Record**

Over the past 20 years, Benchmark Medical Consultants has provided more than 2,000 attorneys and insurance professionals with objective, concise medical expertise spanning more than 50,000 cases. We have offices and exam locations in Northern California, Southern California and Hawaii, and with consultants located throughout the nation can arrange for services virtually anywhere upon request.
