

# Is there a doctor in your training room?

You can have world-class consultants come into your office—at no charge—to provide medical-legal education to your team. If you are an existing Benchmark client, or if your organization handles cases where medical expertise is required, call us to find out more about our accredited MCLE offerings.

## **Benchmark Education Programs**

*Benchmark provides continuing education to both our clients and medical consultants. We are an accredited MCLE (Mandatory Continuing Legal Education) provider, and have been providing MCLE presentations to our clients for nearly ten years. Our educational on-sites can help make complex medical subjects easily understandable. We are also an ACCME accredited CME (Continuing Medical Education) provider. We teach physicians courses in legal process, dispute resolution, causation analysis and the art of presenting complex medical issues in a simple, clear manner.*

## **How it Works**

If your organization is interested in hosting an educational session for your team on a medical or medical-legal topic, simply call Benchmark and ask to speak with the education coordinator. We will work with you on the topic, the program, the medical specialty or specialties that are needed, and will provide MCLE credit to qualified participants. We will then work with you to schedule the sessions at a time and location that is convenient.
